The Legend of Dagad Trikon - a novel

Imagine.... discovering the key to the next level in the cosmic game of creation...

Imagine.... uncovering the roots of humankind, and the truth of ancient myths that cut across race and culture...

Imagine.... that the roots are alive, and within every human being ...

Imagine.... true freedom...

Imagine.... that the time for *e pluribus unum* (out of many, one) is now ...

The Legend of Dagad Trikon is a mythical tale, a page-turning story of good-versus-evil, of the search for ten caskets containing prophecies hidden by the Avasthas, an enlightened race who vanished ten thousand years ago. This compelling narrative moves across continents, from Dagad Trikon, an ancient site deep within the Sahara desert, to the elephant rock in Delphi, to Washington D.C, and New York, to Mount Kailash in Nepal, and the Vatnajoekull glacier in Iceland, under which the first casket is unearthed - just as the volcano underneath has begun to erupt.

The Legend of Dagad Trikon
Grégoire de Kalbermatten
 daisyamerica LLC ISBN- 13 (978-1-932406-01-6)
 October 11, 2007
 \$16.95 Paperback, 396 pages

"As the editor of the *Legend of Dagad Trikon* and of many other fantasy titles, this fascinating novel was unique for me in the sheer depth and scope of the stage on which it plays out. The breath-taking sweep of the author's knowledge of world cultures is evident on every page as the reader is transported from Delhi to Delphi, from Cairo to Oslo, from Moscow to Washington DC - all in pursuit of a secret that has the potential to change the course of human history. More importantly, the possibility of real human happiness is visualized convincingly and the very fate of our planet is at stake. We find ourselves caring deeply for the characters and it is the heady page-turning momentum of this fully realized fantasy that propels the reader onward. To read this novel is to embark on a journey, an adventure - a quest that is at least as richly rewarding as the search for the secrets of Dagad Trikon itself."

Radhika Rao Gupta, Danville, California

Reader's comments

"This is one of those rare books, like the master work of C.S. Lewis, which draws you in completely and compels you to participate with the protagonists on their amazing journey. Having heard such great things about the book from friends, I had very high expectations and I wasn't disappointed. It was so enjoyable to be swept into such a captivating 'reality'. Please let there be a sequel."

Margaret Merga, Tasmania, Australia

"*The Legend of Dagad Trikon* is a fascinating story that touched me deeply, indeed, at times I had a sense of being in meditation in the middle of reading a chapter. At other times, I was profoundly moved, for I could feel inside what the characters in the history were going through. Grégoire de Kalbermatten has a unique and rare talent, the ability to put into words, feelings and aspects of life of extreme depth."

Horacio Albertoli, Switzerland

"Reading *The Legend of Dagad Trikon* is rather like reading a sequel to *The Lord of The Rings*. The characters come across as long-lost relatives. It is a brilliant work and I particularly enjoyed the brother-sister relationship - it is so sweet, how they care, how they help and support each other. It is a book for those interested in legends and myths such as the Holy Grail or the Knights of the Round Table, those who are looking for a way of going 'higher' and 'deeper' within themselves, in pursuit of self-knowledge, and for those who secretly hope, or wish, that the enlightenment of the soul is possible for everyone now, in 2006, and that you don't have to leave your family, your job, or go to the deserts or to the Himalayas, or to take drugs in order to reach this higher consciousness.

It is also for those of a Christian background and who wonder as to the real nature of the Holy Ghost. I have never read anything quite like it."

Geneviève Brisou, France

"*The Legend of Dagad Trikon* is a magic door through which we actually seem to pass, into a place beyond our perceptions of the material world, and of time and space, and into the one reality we recognize, which resonates at our deepest core. It allows us a glimpse of the greatest discovery we can imagine, as mysterious as it is awesome."

James Kosakow, New York City
